

# USB Recording Kit

## COMPUTER RECORDING STUDIO

Your Mac or PC with two USB ports and a pair of mic cables are all you need to get started recording today.

Connect the AM2 condenser microphones to the iO2 digital-audio interface, and you can record high-quality audio into your computer using included Steinberg Cubase LE 4 software. Monitor your sessions and playback with the accurate, clean output of M1Active 320USB. No extra sound cards, no special connectors or adapters, and no software drivers are needed.

**MATCHED-STEREO PAIR OF MICROPHONES** AM2 Stereo Microphone Set – Low profile, miniature cardioid condensers with switchable pad and high-pass filter captures the nuance and subtlety that separate good recordings from great ones.

**FLEXIBLE DIGITAL-AUDIO RECORDING INTERFACE** iO2 – Two XLR-1/4" combo inputs with TRS inserts are mic/line-level switchable and provide 48V phantom power for condenser microphones.

**TWO-WAY ACTIVE REFERENCE MONITORS** M1Active 320USB – One-inch silk dome tweeter and three-inch lightweight woofer in magnetically shielded design enables worry-free placement near computer monitors, televisions, and hard drives

**AWARD-WINNING DAW SOFTWARE** Steinberg Cubase LE 4 – Cubase LE 4 represents the cutting edge in digital audio workstations. Designed for professionals from the ground up, Cubase LE converges extraordinary sound quality, intuitive handling and a vast range of highly advanced audio and MIDI tools for composition, recording, editing and mixing.

## FEATURES

- Recording-studio system: AM2 Stereo Set, iO2, M1Active 320USB, Steinberg Cubase LE 4
- Matched pair of AM2 cardioid-condenser microphones capture excellent detail
- Interface has two XLR-1/4" inputs with TRS inserts for comprehensive connectivity
- Compact, portable studio monitors provide professional-sound quality

- High-quality 24-bit/48kHz analog-to-digital conversion
- Headphone outputs on iO2 and M1Active 320USB
- Easy-to-learn, powerful recording software
